

Transvigour Supplies

*Engineering Precision
and Operational
Excellence in Oil & Gas
and Energy Sectors*

About Us

Transvigour Supplies is a trusted provider of technical and operational services to the oil, gas, and energy industries.

We deliver reliable, compliant, and efficient solutions that enhance safety, streamline operations, and ensure regulatory adherence.

Our Services

Technical Documentation

- Operating and Maintenance Manuals (O&M).
- Standard Operating Procedures (SOPs).
- Field Operator Handbooks.
- Process Hazard Analysis (PHA) Reports.
- Safety and Regulatory Documents

Process Studies

- Evaluation of PFDs and P&IDs.
- Heat and mass balance calculations.
- Energy efficiency and equipment performance analysis.

Upstream, Midstream, and Downstream Support

- Wellhead optimization, pipeline design, and refinery process enhancement.

HAZOP Studies

- Hazard identification, risk mitigation, and compliance with OSHA and API standards.

Project Staffing

- Skilled personnel for pre-commissioning, commissioning, and shutdown support.

Pre-Commissioning & Commissioning Documents

- System testing, validation, and handover documentation.

Process Engineering Design

- P&ID development, equipment sizing, debottlenecking, and plant optimization.

Why Choose Us?

- **Experienced Team:** Proven track record in delivering complex projects in the U.K., U.S, India, and beyond.
- **Quality Assurance:** Adherence to international standards for safety and compliance.
- **Client-Focused:** Customized solutions to meet specific operational needs.
- **Timely Delivery:** Efficient execution to ensure project deadlines are met.

Our Commitment

At Transvigor Supplies, we are dedicated to providing solutions that enhance efficiency, ensure safety, and maintain compliance in the oil, gas, and energy sectors.
